This indicates that the product export was successful from your Woocommerce platform to the botbelanja.com platform.

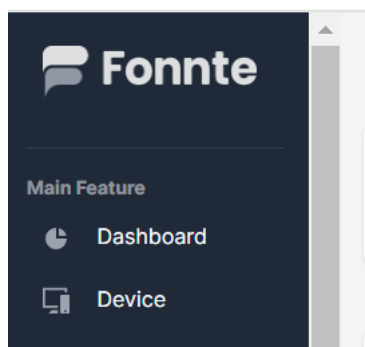

8. Register fonnte.com here. Copy paste token from fonnte dashboard to botbelanja.com dashboard.

Register your account on Fonnte using this link. <https://md.fonnte.com/new/register.php?ref=9>

The screenshot shows a web browser window with the address bar displaying <https://md.fonnte.com/new/register.php?ref=9>. The page content features a light gray background with a central white registration form. At the top of the form is a link "← Back to homepage". The form is titled "Create Account" and contains three input fields: "Name" with a person icon and the text "Fonnte", "Whatsapp" with a WhatsApp icon and the placeholder "write your personal whatsapp number", and "Country" with a flag icon and a dropdown menu showing "Indonesia (+62)". Below these fields is a dark blue "Register →" button. At the bottom of the form, there is a link "Already have an account? Login here".

Go to the "Device" menu on the Fonnte dashboard.

Add "Device" to the Fonnte.com dashboard menu.

Set Token Fonnte

Please observe the BotBelanja.com dashboard above; there is information about the Webhook URL. Copy it and paste it into the Fonnte.com dashboard.

Look at the image below; it's the Fonnte dashboard, under the Devices menu, click on Edit. Enter the webhook information from the BotBelanja.com dashboard here.

The screenshot shows the 'Edit Device' form in the Fonnte dashboard. The form contains the following fields:

- Number:** A field with a mobile phone icon and a value that has been redacted with a blue line.
- Name:** A field with a person icon and the value 'device 2'.
- Token:** A field with a lock icon and a value that has been redacted with a blue line.
- Webhook:** A field with a right-pointing arrow icon and the URL 'https://botbelanja.com/botbelanja\_2/botbelanja\_de'. Below this field is the text 'Webhook url must allow POST and GET method'.
- Webhook Message Status:** A field with a right-pointing arrow icon and the URL 'https://fonnte.com/webhook.php'. Below this field is the text 'Webhook url must allow POST and GET method'.
- Webhook Chaining:** A field with a right-pointing arrow icon and the URL 'https://fonnte.com/webhook.php'. Below this field is the text 'Webhook url must allow POST and GET method'.

Blue arrows indicate the flow of information from BotBelanja.com to Fonnte.com. One arrow points from the 'Number' field to the 'Webhook' field. Another arrow points from the 'Token' field to the 'Webhook' field. A third arrow points from the 'Webhook' field to the 'Webhook Message Status' field. A fourth arrow points from the 'Webhook Message Status' field to the 'Webhook Chaining' field.

Here is the view of the Fonnte dashboard, devices, and edit menu. Paste the webhook information obtained from BotBelanja.com into the Fonnte.com dashboard.

Ensure that the AutoRead menu is set to "On," and the Personal menu is also set to "On." See the display on the Fonnte dashboard below.

**Monitoring OpenAI Expenditure.** It's important to note that the costs associated with OpenAI GPT API usage can be paid directly to OpenAI. The costs listed on the BotBelanja.com homepage are subscription fees for using the BotBelanja.com platform, separate from OpenAI and Fonnte.com WA gateway API costs.

For easier monitoring of OpenAI expenses, you can check the OpenAI usages menu on the BotBelanja.com dashboard. By default, BotBelanja.com uses the GPT 3.5-Turbo API model. If you wish to use the GPT 4.0 model, you can request it from the BotBelanja.com admin, ensuring you have the necessary access to GPT 4.0 from OpenAI.
